

HP and Vital Support System's Scale-Out NAS Workshop:

An Architecture to Support both High Capacity and Performance Workloads

BALANCE

infrastructure costs with **A** scalability and performance

» REGISTER TODAY

» [Register to attend HP's Scale-Out NAS Workshop](#)

Unstructured or file-based data continues to create new challenges for businesses of all sizes. This means managing infrastructure, acquisition, and maintenance costs without sacrificing scalability and performance. See how the new HP StorageWorks X9000 Network Storage System targets these specific requirements in unique and innovative ways.

Discover how to meet today's data challenges by attending this complimentary event.
