

BEAT THE BACKUP BLUES

With Vital Support Systems & EMC

Everyday your company's backup challenges get bigger: managing massive data growth, transitioning to a virtual infrastructure, delivering higher service levels, and mitigating business risks, all while keeping costs under control.

Join Vital Support Systems & EMC for a discussion on the latest strategies for transforming backup with deduplication and for optimizing your backup with VMware.

REGISTER TO ATTEND ONE OF TWO SEMINARS OFFERED!

Lunch Included!

Thursday, September 9	11 a.m. - 1 p.m.	Bass Street Chophouse, Moline, IL
Tuesday, September 14	11 a.m. - 1 p.m.	Biaggis Restaurant, Cedar Rapids, IA

In this seminar, you will learn how to:

- * Retain backups longer using 20x-50x less disk space
- * Replicate data offsite faster with 99 percent bandwidth efficiency
- * Increase server consolidation ratios by up to 50% through more efficient VMware backup
